

Safe-T-Pro

Premium Face Shield

- Product package labeling is included to advise against use near heat sources and flammable gas.
- Strong design using injection molded PP and extruded PET for excellent strength and high volume production
- Flexible and lightweight frame adjusts to fit the user's head profile
- Easy to assemble and comfortable to wear long periods
- Increased protection when compared to conventional cloth face masks. Shield is properly sized for excellent splash and liquid protection.
- The lightweight design ensures maximum comfort for employees and the public
